## HMCS RESTIGOUCHE

### THE NAME

Her Majesty's Canadian Ship RESTIGOUCHE is named after the New Brunswick salmon river which flows into the head of the Baie des Chaleurs. Authorities disagree on the significance of the name but they do agree that it comes from the Micmac language.

Of particular naval interest and importance in Canadian history was the Battle of Restigouche fought in July 1760. It was the last battle between French and British naval forces in the struggle for possession of the North American continent. The French, having taken haven in the mouth of the Restigouche, were attacked and subsequently defeated by a British squadron under the command of Commodore John Byron, grandfather of the poet. A French cutlass, recovered from one of the wrecks of the battle, now hangs in the ship's Wardroom.

### THE HERITAGE

HMCS RESTIGOUCHE is the second ship of the same name to have served in the Royal Canadian Navy. The first, H00, was commissioned into the RCN in 1938 and served as a convoy escort during the Second World War. After a long and useful career, she paid off in Sydney, Nova Scotia on 6 October 1945. H00 left the following battle honours:

Atlantic	.....1939-45
Normandy	.....1944
Biscay	.....1944

### THE SHIP'S BADGE

The gold field is derived from the field in the Arms of New Brunswick, where the Restigouche River flows.

The five-pronged fish spear represents the five tributaries of the river. The fork is coloured blue in suggestion of the water.

There is another inference to be seen in this device as an instrument to hunt for fish below the surface of the sea - a subtle allusion to the ship's anti-submarine role.

The ship's colours are blue and gold.

## THE FIRST TWENTY-FIVE YEARS

HMCS RESTIGOUCHE was laid down at Canadian Vickers Limited, Montreal on 15 July 1953 and launched on 22 November 1954. The first in a class of destroyer escorts developed from the St-Laurent class, she incorporated modern improvements in armament and submarine detection capabilities. She was commissioned into the Royal Canadian Navy on 7 June 1958.

After commissioning, RESTIGOUCHE proceeded to Halifax where she joined the Fifth Canadian Escort Squadron. She quickly established herself by winning, in the first five years of her commission, the Squadron Efficiency Trophy twice and the L.W. Murray Trophy for proficiency in gunnery once.

In August 1970, RESTIGOUCHE entered Halifax Shipyards where work began on a two year conversion programme. Improved weapons and sensors including the American Anti-Submarine Rocket System (ASROC) and the Canadian designed and produced Variable Depth Sonar (VDS) created the IMPROVED RESTIGOUCHE ESCORT or IRE.

DDE 257 was re-commissioned in Halifax on 12 May 1972 and in April 1973, she was transferred to Esquimalt. Since then, she has served in the Second Canadian Destroyer Squadron which groups all four IRE's.

HMCS RESTIGOUCHE has served well in her first twenty-five years of commission. Some of the highlights of her service include a visit to pre-Castro Cuba in 1958, a deployment to Cyprus with HMCS BONAVENTURE in support of Canadian peace-keeping troops in 1964, the embarkation of the Right Honourable Pierre E. Trudeau in 1976, the embarkation of British Columbia Lieutenant-Governor Bell-Irving in 1982 and, more recently, a deployment to the Far East with visits to California, Hawaii, Japan, South Korea, the Peoples' Republic of China and the Philippines.

## THE COMMANDING OFFICER

COMMANDER S.K. JESSEN, CD

Commander Steen Jessen was born in Copenhagen, Denmark, in 1943 and attended schools in Denmark, Ontario and British Columbia. He joined the Royal Canadian Navy in 1962 as a Naval Cadet under the Regular Officer Training Plan and attended Victoria College and University of Victoria, Victoria, B.C., graduating in 1965 with a Bachelor of Arts degree. Following pre-fleet courses in HMCS STADACONA, Halifax, N.S., he joined HMCS SASKATCHEWAN at Esquimalt, B.C., in April 1966, becoming her Navigation Officer a year and a half later. In 1968 he became Flag Lieutenant to the Commander Maritime Forces Pacific, then Rear-Admiral J.A. Charles, RCN, an appointment which he held until August 1969. After spending a year as Navigation Officer of HMCS TERRA NOVA at Halifax, N.S., he attended the Operations Specialist Course in Halifax, returning to the West Coast in 1971 as the Operation Officer of HMCS QU'APPELLE. In 1973 he was appointed the Commanding Officer of HMCS FUNDY, MSC 159, and a year later assumed command of her sister ship HMCS CHALEUR. Both vessels were part of the Canadian Training Squadron based at Victoria, B.C..

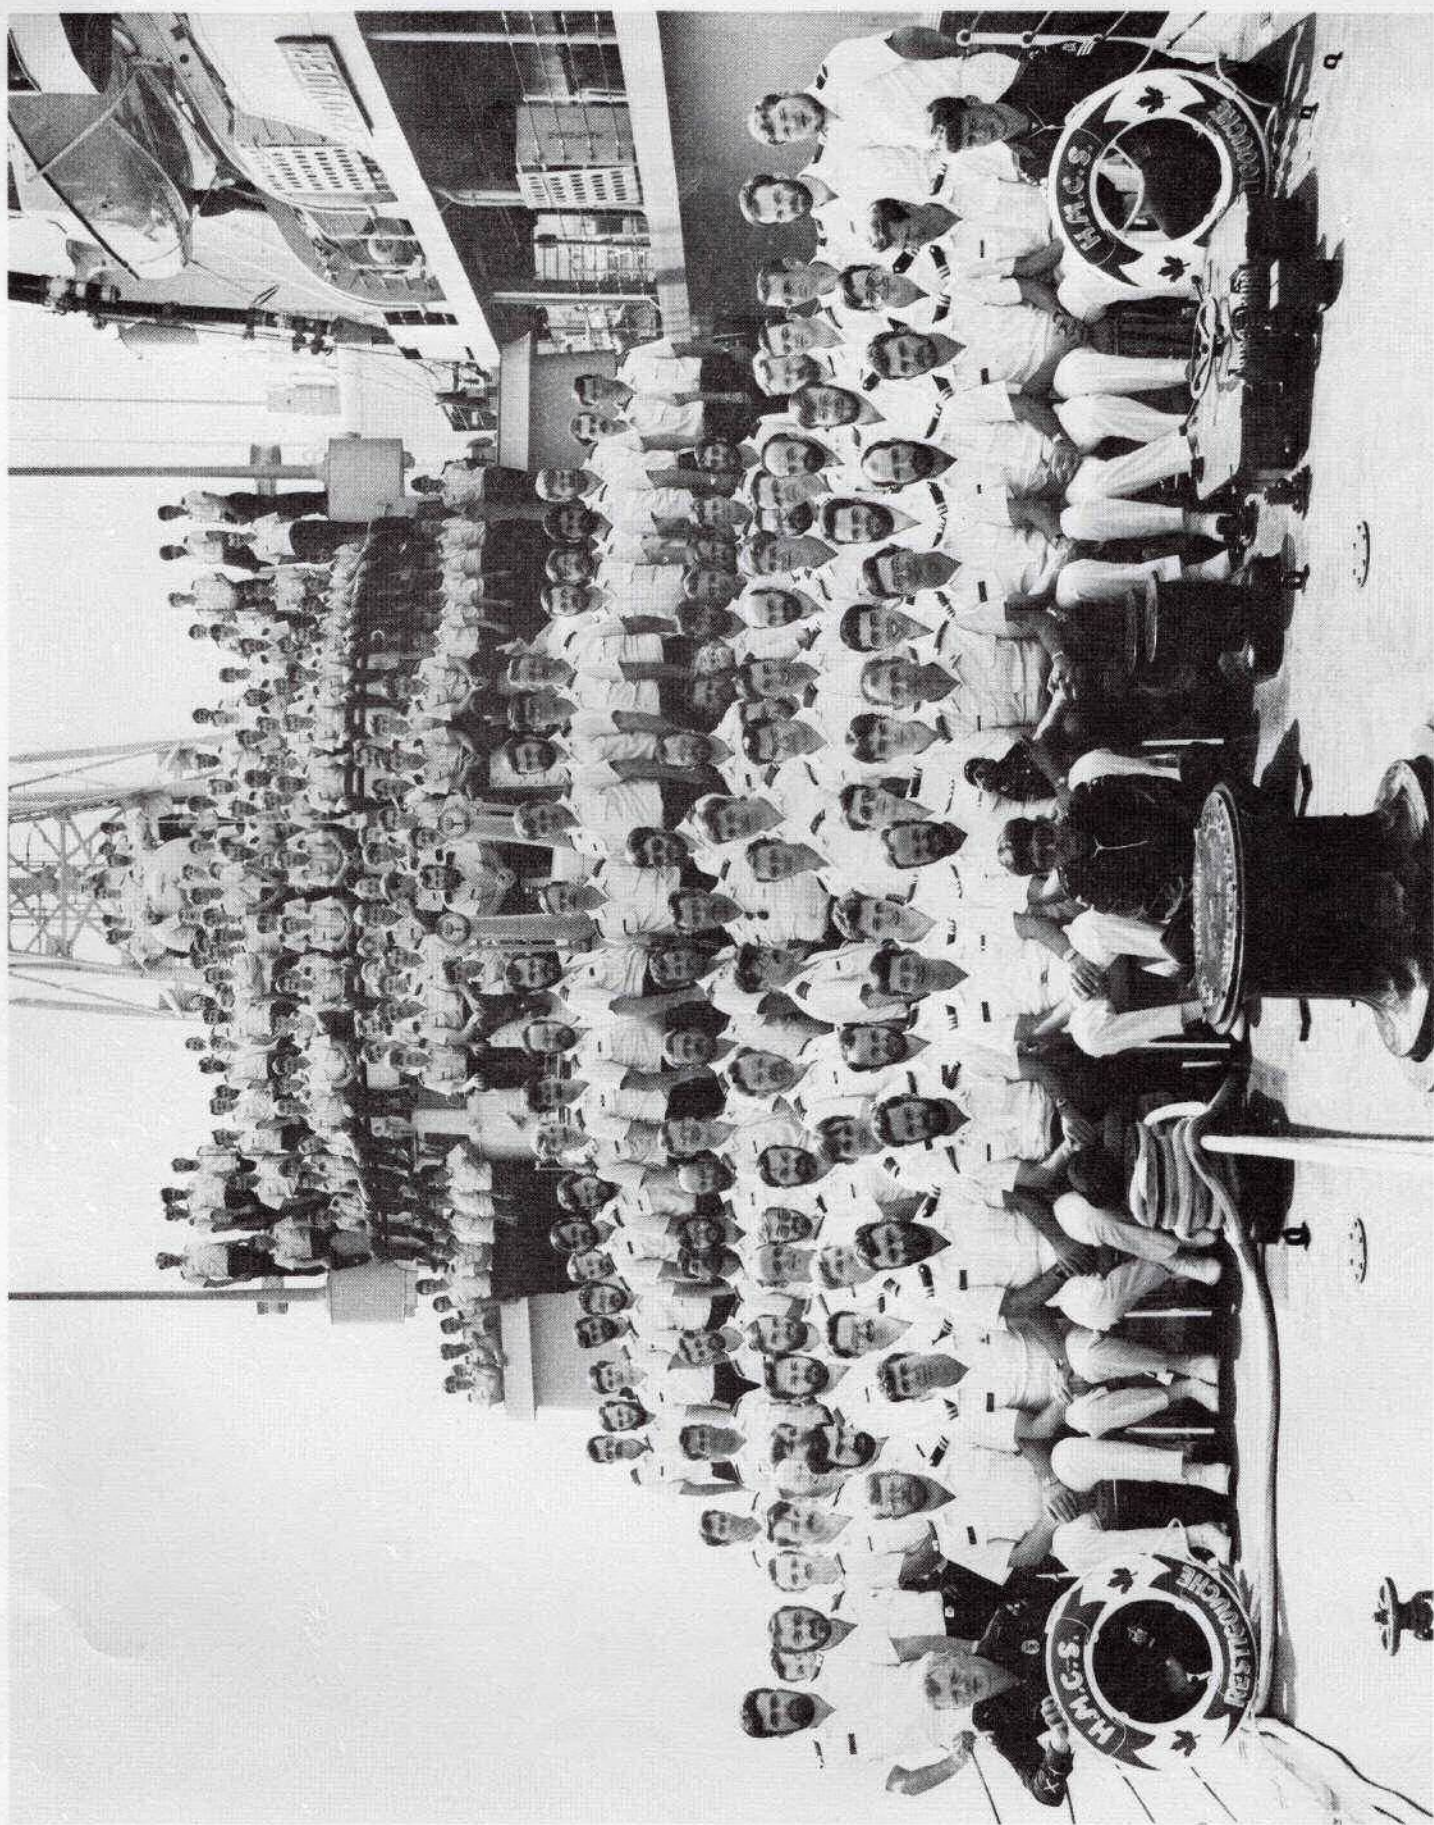

Commander Jessen was promoted Lieutenant Commander in January 1975 and attended the Royal Naval Staff College in Greenwich, England. Subsequent to this course he served on exchange with the Royal Navy in HMS DRYAD, where he was the Officer in Charge of the Royal Navy's Surface and Air Warfare Tactical Trainer. He returned to Canada in 1977 on the Staff of Maritime Command Headquarters, Halifax, N.S., as Staff Officer Evaluations and Equipment Requirements. A year later Commander Jessen was appointed Executive Officer of HMCS TERRA NOVA at Esquimalt, B.C., a position he held until March 1980 when he was promoted to Commander and appointed Queen's Harbour Master, Esquimalt. In August 1981 he commenced a nine month French Language Course at CFB Esquimalt and CFB St Jean, Que.. He assumed command of HMCS KOOTENAY on 2 July 1982, and joined HMCS RESTIGOUCHE as her Commanding Officer on 7 January 1983.
